

The 2nd UKM-TU Joint Research Symposium on Pharmaceutical Sciences
Scientific Program
Thursday April 27, 2017
Conference Room, 2nd Floor, Health Sciences Central Auditorium and Laboratory Building
Thammasat University, Rangsit Center, Thailand

Thursday (April 27, 2017)	
08.00 – 09.00	Registration / Poster setup (Conference Room Foyer)
Opening Ceremony: (Conference Room 1)	
09.00 – 09.30	<p>Welcoming Address By Assistant Professor Dr. Rathapon Asasutjarit, Associate Dean for Research and Graduate Studies, Faculty of Pharmacy, Thammasat University Chairperson of the 2nd UKM-TU Joint Research Symposium on Pharmaceutical Sciences</p> <p>Welcome Speech By</p> <ul style="list-style-type: none"> - Professor Dr. Narong Sarisuta, Dean, Faculty of Pharmacy, Thammasat University - Associate Professor Dr. Jamia Azdina Jamal, Dean, Faculty of Pharmacy, Universiti Kebangsaan Malaysia <p>Opening Remark By Professor Dr. Pramuan Tapchaisri, Vice Rector for Research, Thammasat University</p>
Plenary Session: (Conference Room 1)	
09.30 – 10.00	<p>Plenary Lecture I <i>“Exploration on modifiable factors for medication adherence among subsidized and self-paying patients in Malaysia”</i> By Dr. Ernieda Md Hatah, Faculty of Pharmacy, Universiti Kebangsaan Malaysia</p>
10.00 – 10.30	<p>Plenary Lecture II <i>“Targeted and controlled delivery of polymer-drug conjugate based nanoparticles”</i> By Professor Dr. Varaporn Janyaprasert, Faculty of Pharmacy, Mahidol University, Thailand</p>
10.30 – 11.00	Coffee Break / Poster Session
11.00 – 11.30	<p>Plenary Lecture III <i>“The search for new lead phytochemicals targeting molecular processes of neurodegeneration”</i> By Dr. Norazrina Azmi, Faculty of Pharmacy, Universiti Kebangsaan Malaysia</p>
11.30 – 12.00	<p>Plenary Lecture IV <i>“National drug pricing policy to promote drug industry and accessibility”</i> By Associate Professor Dr. Chaonsin Sooksriwong, Faculty of Pharmacy, Mahidol University, Thailand</p>
12.00 – 13.20	Lunch break / Poster Session (Conference Room Foyer)

Concurrent Sessions:		
	Pharmaceutics / Novel Drug Delivery Systems Drug Discovery / Medicinal Chemistry / Natural Products (Conference Room 1)	Pharmacology / Pharmacokinetics / Clinical Pharmacy Social Pharmacy / Pharmacy Administration / Pharmacy Practice (Conference Room 2)
13.20– 13.40	OPS 1: Xanthine oxidase inhibitors from <i>Marantodes pumilum</i> var. <i>pumila</i> By Associate Professor Dr. Jamia Azdina Jamal (UKM)	OPC 1: Cancer chemoprevention through induction of annexin A1 (ANXA1) production by phytoestrogens and Curcumin By Associate Professor Dr. Endang Kumulosasi (UKM)
13.40 – 14.00	OPS 2: Modified industrial manufacturing methodology for proliposomal production By Dr. Amolnat Tunsirikongkon (TU)	OPC 2: Menopausal symptoms and musculoskeletal pain in post-menopausal breast cancer patients receiving adjuvant endocrine therapy in Universiti Kebangsaan Malaysia Medical Centre By Dr. Noraida Mohamed Shah (UKM)
14.00 – 14.20	OPS 3: Cell growth inhibition effect of DsiRNA vectorised by pectin-coated chitosan-graphene oxide nanocomposites as potential therapy for colon cancer By Associate Professor Dr. Haliza Katas (UKM)	OPC 3: The effectiveness of workplace smoking cessation program by the pharmacist in UKM By Dr. Adliah Mhd Ali (UKM)
14.20 – 14.40	OPS 4: Synthesis and biological evaluation of simplified analogs of lophocladine B as potential antitumor agents By Dr. Sewan Theeramunkong (TU)	OPC 4: Screening for pre-hypertension with other elevated cardiovascular risk factors in community pharmacy By Associate Professor Dr. Juraporn Pongwecharak (TU)
14.40 – 15.00	OPS 5: Simvastatin: application in wound healing and skin disorder By Associate Professor Dr. Ng Shiow Fern (UKM)	OPC 5: A clinical tool to predict risk of relapse in <i>Plasmodium vivax</i> infection in Malaysia By Dr. Farida Hanim Islahudin (UKM)
15.00 – 15.20	Coffee Break / Poster Session (Conference Room Foyer)	
15.20 – 15.40	OPS 6: Chemical constituents and their biological activities of selected plants in Malaysia By Associate Professor Dr. Khairana Husain (UKM)	OPC 6: The effect of <i>Gynura procumbens</i> ethanolic extract on lipopolysaccharide-induced nitric oxide production in macrophage By Dr. Norsyahida Mohd Fauzi (UKM)
15.40 – 16.00	OPS 7: Role of omega fatty acids in the treatment of wound By Dr. Mohd Hanif Zulfakar (UKM)	OPC 7: Assessment of medication literacy among patients with chronic diseases By Dr. Chong Wei Wen (UKM)
16.00 – 16.20	OPS 8: Preparation and characterization of hydroxypropyl methylcellulose/polycarbophil mucoadhesive blend films using a mixture design approach By Dr. Pakorn Kraisit (TU)	OPC 8: Two-tier method analysis for rapid identification of counterfeit and adulterated herbal products By Dr. Mazlina Mohd Said (UKM)
16.20 – 16.40	OPS 9: Synthesis of chromone derivatives as COX-2 inhibitors By Dr. Lam Kok Wai (UKM)	
16.40 – 17.00	OPS 10: Preparation of lyophilized liposomes containing single chain polypeptide for ophthalmic application By Tinnapop Tourawong (TU)	
17.00	Closing Ceremony
